

Transport Knowledge Organiser- Nursery

In **Nursery** children will learn the following:

Transport

By the end of this topic, we want the children to have an embedded knowledge of the following:

- Know why we need different types of transport and what they are used for.
- Know that transport has changed over time.
- Know that different modes of transport have different features including, wheels, wings propellers, jet engines etc.
- Know that transport is powered in various ways including pedal power, fuel and electric.

Key vocabulary your child will learn and can define are:

Transport	Takes people from one place to another via vehicle, aircraft, or boat.
Journey	Getting from one destination to another.
Route	The way taken to get from place to place.
